      big game hunt seasons with the following exceptions:
      i. Archery Hunters:
         1. Total of 10 days in the field; 4 limited to a blind
      ii. 3rd Season Bull: Limited to last 3 days of the 3rd rifle season
      iii. 3rd Season Youth Bull: Limited to first 3 days of the 3rd rifle season
iv. **3rd Season Youth Buck**: Limited to first 3 days of the 3rd rifle season

v. **Cow: Rolling hunt opportunity**: Hunts will most likely be in December and January but there is a chance we may get some hunters in before that. The season for PLO cow hunts is September through January 31.

vi. **Turkey: Rolling hunt opportunity**: All turkey hunts will be during the spring season in April and May.

vii. Each year, a calendar with designated days for all of the hunts is released.

*Limited to a designated day or days determined by the number of the hunt drawn. Hunters will hunt in order, after the hunter ahead of them in numerical order harvests or has a successful hunt. As we progress down the list of hunters, we will call the hunters and plan their upcoming date accordingly.

26. **Bull Elk Hunt Categories/Classification:**

a. **Unrestricted Bull Elk Hunt**: Any bull is eligible for harvest

b. **Restricted Bull Elk Hunt**: Typically a bull that is not a trophy and does not have ‘special’ qualities (‘special’ will be defined by the guide). However, depending on the year’s harvests and observations, a Restricted hunt may allow for a trophy bull. It would not allow for ANY trophy bull but a specific class, age, or even a specific bull.

The determination of the ‘restrictions’ in place for the hunt would be made prior to the start of the hunt. If the restriction allows for a trophy, an additional $500 fee would be assessed prior to the start of the hunt. The hunter can choose whether or not to take the ‘trophy option’ if it is available.

No matter what restrictions are in place for the hunt, the final determination of whether a bull fits the criteria and can be harvested is subjective and such determination is up to the guide. All staff/guide decisions are final.

b. **Management Bull Elk Hunt**: A bull that is not a trophy and likely never will be; or a non-branched spike. The determination of a management bull is subjective and such determination is up to the guide. All staff/guide decisions are final.

27. **Wait Periods:**

There will be mandatory wait periods, or periods of ineligibility, for any hunter who harvests an animal or has a successful hunt for an animal. ‘Successful hunt’ is defined as a hunt where an animal is either harvested, wounded, or the hunter has a reasonable opportunity for a shot and passes. Such determination is made by the guide.

Each harvested bull elk will be judged by the sitting HRCA Hunt Committee. The Committee will make a recommendation to staff to categorize the harvest into a category outlined below.

In the event an animal is wounded and not recovered, that will count as a harvest. The HRCA guide will have final say in categorizing the bull. However, if it is a known bull then pictures will be used and the categorization will go through the normal committee process. All hunters must have their harvested bull (if it is not deemed a management or non-trophy) scored and provide that score to staff or the 20 year wait period will apply. The score will help categorize the bull but will not be the final determination. All
staff decisions and judgements are final regarding judgement of success and size/categorization of the bull elk.

Wait periods is a term of ineligibility for hunts (the term of ineligibility applies only to the sex/species of the harvested animal).

Hunters may not collect points under the HRCA point system during their wait period. Hunters may also continue to participate in all drawings, except the archery drawing, (after “General” eligibility/wait period expires) and if drawn for a bull hunt, that hunt would automatically be a management bull hunt.

For example, if a hunter hunts a bull in 2017, and has a successful hunt for a non-management bull, the hunter would be ineligible for all bull hunts for 2018 and 2019 and is again eligible for all hunts in 2020. Or, if a hunter hunts a bull in 2017 and harvests a trophy bull that requires a five year mandatory wait period, after two years of that wait period (2018 and 2019) they would be eligible to enter drawings for all bull hunts, except archery, in 2020 but if drawn, their hunt would automatically be a management bull hunt. That would be in effect for all years until their wait period expires.

Hunts won in an auction or game are not subject to the wait periods.

All wait periods are retroactive to the fall 2017 hunts. Any hunter who hunted in the fall of 2017 is subject to these wait periods.

WAIT PERIODS:

i. Any *successful hunt
   1. 2 year wait period

ii. Management Bull Harvest
    1. 2 year wait period

iii. Turkey Harvest
     1. 2 year wait period

vii. Buck deer harvest
     1. 10 year wait period

           or unsuccessful drawing result for the CPW Unit 51 Tag for which they

      iv. Payment and verification forms for these hunts is due by the 2nd Friday

      they may not transfer their hunt to another person. A new drawing for that
      hunt will be conducted to choose another winner. Except for turkey and buck
      hunts. Experienced hunters who draw a turkey or buck hunt will be encouraged

      members in good standing. Transfers are subject to staff approval.

POINT SYSTEM

30. There are three pools to earn points in; Bull elk, Buck/Cow elk/turkey and Youth.
31. If a person hunts an animal from any of those pools, their points reset to zero within that pool. For bull elk hunts, the category of bull hunt does not matter, nor does it matter if it was a voucher, provide your own license, prize, etc.

32. If a person skips one year of gaining a point in a pool, their points reset to zero for that pool. A person may obtain only one point per year in any pool.

33. There is no pool for coyotes, a coyote hunt does not impact points whatsoever.

34. Points do not reset to zero if a hunt was purchased via auction; otherwise, all other situations where a person hunts the animal from that point pool, points reset to zero.

35. Beginning in 2020; points will be weighted using the following system (a point is equivalent to a year)
   a. 5-9 points: Multiply x 2
   b. 10-14 points: Multiply x 3
   c. 15-19 points: Multiply x 4
   d. 20-24 points: Multiply x 5
